

A partnership of **The Emergency Coalition to Save Child Care** and the **NYC Youth Alliance**.

More Than 47,000 Children Are at Risk of Losing Child Care and After-School Programs

If over \$170 million is not restored for child care and after-school in the final budget, over 47,000 children will lose access to programs that keep them safe and learning while their parents work.

Child Care: 15,368 Slots at Risk

- **6,500 subsidized contract seats**
 - **\$71.5 million** to restore the 6,500 seats at the new EarlyLearn rate
 - This capacity loss is due to the Administration's failure to fund FY12 City Council restorations and the funding of EarlyLearn.
- **7,700 vouchers and 1,168 Family Child Care Vouchers**
 - **\$24.5 million** to restore these vouchers
 - These vouchers were funded in FY12 by City Council and Mayoral funds that were not included in the FY13 Executive Budget.

After-School: 32,333 Slots at Risk

- **26,000 Out-of-School Time (OST) After-School Slots (elimination of approximately 200 programs)**
 - **\$80 million** to restore these slots
 - This capacity loss is due to the Administration's failure to fund FY12 City Council restorations, a funding cut by the Administration and the funding of the OST RFP.
- **5,600 Beacon After-School Slots**
 - **\$4.5 million** to restore these slots (800 slots at each of the 7 Beacons slated for closure)
 - The capacity loss is due to the Administration's failure to fund FY12 City Council restorations and a funding cut by the Administration.
- **733 NYCHA Cornerstone After-School Slots**
 - **\$1 million** to restore these slots
 - The capacity loss is due to the Administration's failure to fund FY12 City Council restorations and a funding cut by the Administration.

Total = More Than \$170 million for More Than 47,000 Slots

We can't afford to cut child care or after-school programs for even a single child. We urge the Mayor and City Council to stand up for children and working families, and fully fund child care and after-school in the final budget.
